

## The 4impact Advantage.

4impact is a consulting and technology services business with a primary focus on the delivery and implementation of complex technology projects. We value relationships - with our consultants, with our clients, and with our suppliers and partners.

As a 100% Australian-owned and operated business with offices in Brisbane (HO), Sydney, Wellington and Manila, we do focus heavily on the Australian and New Zealand markets.

However, APAC is also in our business backyard and our 200 staff are distributed across our four offices supported by our remote talent community of 900+ quality consultants.

## 4impact Group snapshot.
